

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Anti-A1 (Lectine)

Page 1 of 4

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Anti-A1 (Lectine): Order-no. 6811

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture

Test reagents for use in the identification of the mentioned blood grouping antigens by the recommended techniques in the product inserts.

1.3. Details of the supplier of the safety data sheet

Company name: BAG Diagnostics GmbH
Street: Amtsgerichtsstr. 1-5
Place: D-35423 Lich
Telephone: +49 (0)6404 925-100
e-mail: info@bag-diagnostics.com
Contact person: Dr. Evelyn Sachsenberg
e-mail: e.sachsenberg@bag-diagnostics.com
Internet: www.bag-diagnostics.com
Telefax: +49 (0)6404 925-460
Telephone: +49 (0)6404 925-217

1.4. Emergency telephone number:

Extern: +49 (0)6131-19-240 Medizinische Klinik der Universität Mainz
Intern: +49 (0)171-2157379

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Regulation (EC) No. 1272/2008

This mixture is not classified as hazardous in accordance with Regulation (EC) No. 1272/2008.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

Test reagents based on human sera containing antibodies of the relevant specificity.

Hazardous components

| CAS No | Chemical name | | | Quantity |
|------------|---|--------------|----------|----------|
| | EC No | Index No | REACH No | |
| | GHS Classification | | | |
| 26628-22-8 | sodium azide | | | < 0,1% |
| | 247-852-1 | 011-004-00-7 | | |
| | Acute Tox. 2, Aquatic Acute 1, Aquatic Chronic 1; H300 H400 H410 EUH032 | | | |

Full text of H and EUH statements: see section 16.

Further Information

Sodium azide at a product concentration below 0,1 % by weight is not subject to labeling requirements

SECTION 4: First aid measures

4.1. Description of first aid measures

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Anti-A1 (Lectine)

Page 2 of 4

After inhalation

Not applicable

After contact with skin

Wipe off affected area and flush with plenty of soap and water.

After contact with eyes

Immediately flush eyes with plenty of water the eyelids open.

After ingestion

Rinse mouth and drink plenty of water. In case of indisposition seek medical advice.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Select according to surrounding materials.

5.2. Special hazards arising from the substance or mixture

None

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Avoid skin and eye contact.

For personal protective equipment see heading 8.

6.3. Methods and material for containment and cleaning up

Collect spilled product with absorbing material (paper towels, cellulose), remove for disposal. Wipe the area until clean and dry.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

For In-Vitro-Diagnostic Use according to the instructions for use. Treatment as potentially infectious.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Store in tightly closed containers at 2...8°C.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Exposure limits (EH40)

| CAS No | Substance | ppm | mg/m ³ | fibres/ml | Category | Origin |
|------------|-------------------------------------|-----|-------------------|-----------|---------------|--------|
| 26628-22-8 | Sodium azide (as NaN ₃) | - | 0.1 | | TWA (8 h) | WEL |
| | | - | 0.3 | | STEL (15 min) | WEL |

8.2. Exposure controls

Protective and hygiene measures

The usual safety rules and precautionary measures for handling chemical and potentially infectious material must be adhered to. Protective work clothing should be worn. Do not eat or drink while working with the product. After working with the product, disinfect hands, wash hands carefully and remove protective work clothing.

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Anti-A1 (Lectine)

Page 3 of 4

Eye/face protection

Not necessary

Hand protection

Disposable laboratory gloves

Respiratory protection

Not necessary

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| | |
|----------------------|-------------|
| Physical state: | liquid |
| Colour: | brownish |
| Odour: | odourless |
| pH-Value (at 25 °C): | 6,3 +/- 0,3 |

Changes in the physical state

| | |
|--|----------------|
| Initial boiling point and boiling range: | 100 °C |
| Flash point: | not applicable |
| Lower explosion limits: | not applicable |
| Density: | not available |

SECTION 10: Stability and reactivity

10.4. Conditions to avoid

Store below 2° C and/or above 8° C. Fire and excessive heat. Freezing and thawing may decompose the product.

10.5. Incompatible materials

Lead and Copper salt

10.6. Hazardous decomposition products

Sodium azide when heated to decomposition liberates nitrogen gas and sodium, which is explosive.

SECTION 11: Toxicological information

11.1. Information on toxicological effects**Acute toxicity**

Toxicological dates for the products are not available. The product is classified according to Regulation (EC) No. 1272/2008 as not hazardous product.

| CAS No | Chemical name | | | | |
|------------|----------------|-------------|---------|--------|--------|
| | Exposure route | Dose | Species | Source | Method |
| 26628-22-8 | sodium azide | | | | |
| | oral | ATE 5 mg/kg | | | |

Further information

Nevertheless the product should be handled with the usual caution whilst handling biological products.

SECTION 12: Ecological information

12.1. Toxicity

Data regarding ecological effects of this product are not available. If handled and use appropriately, ecological problems are not expected to occur.

Safety Data Sheet

according to Regulation (EC) No 1907/2006

Anti-A1 (Lectine)

Page 4 of 4

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Advice on disposal

In case there are residues to be disposed of (the quantities involved may only be a few Milliliters), these should be placed in disinfectant solution before disposal.

Contaminated packaging

Disposal is to be made in accordance with official local regulations.
Uncontaminated and completely emptied packaging may be treated as domestic waste or recycling.

SECTION 14: Transport information

Other applicable information

Cooled at +2... 8°C. No other special measures need be taken for transporting the products.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulatory information

Water contaminating class (D): - - not water contaminating

Additional information

This MSDS meets the requirements of Regulation (EC) Nr. 1907/2006

SECTION 16: Other information

Relevant H and EUH statements (number and full text)

| | |
|--------|---|
| H300 | Fatal if swallowed. |
| H400 | Very toxic to aquatic life. |
| H410 | Very toxic to aquatic life with long lasting effects. |
| EUH032 | Contact with acids liberates very toxic gas. |

Further Information

The information supplied here is based on data considered accurate and on current state of knowledge. No warranty is expressed or implied regarding the accuracy of this data. Liability is expressly disclaimed for loss or injury arising out of use of this information or the use of any materials designated. It does not establish any contractual relationship.

(The data for the hazardous ingredients were taken respectively from the last version of the sub-contractor's safety data sheet.)
